Materialbank - Objectives

Environmental

- Care/Maintenance of materials that can be reused
- Avoid emissions of CO2 stored in the wood
 - by reusing it instead of burning it.
 - By letting the forests grow
- Low tech/ petrol free approach

Cultural

- Avoid the demolition of old buildings by restoring them
- Perpetuate the use of old carpentry/masonry techniques

Economic

Any gains must first and foremost be invested in the company in various ways (hiring, raising salaries, equipment, research, sponsorship to locals, purchase of sites worthy of protection ...)

Social

Cooperation-orientated and not competition-orientated
Information, resources, products, services sharing
(REBUS research project from Sintef, or with Materialbank for bygningsvern, Sirkulær Voss)
Kveik interest

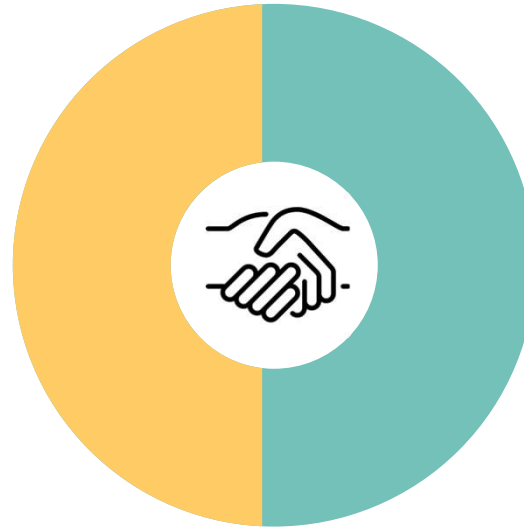

What JCS need

Local authorities

From Voss Herad and Fylkeskommune

Let us preserve the historical-cultural heritage by saving buildings from being crushed.
Help us with regulations, and support concerning the rules and so

Norwegian companies

From Næringsshagen/Green House, IHM...

To tell us what we do right and what we do wrong, or should improve.
To open for opportunities they see in their business.
