# Information points during crises.

## What is an information point?

An information point is a location where the municipality can provide information to residents during a prolonger power outage and the loss of mobile network and/or internet access.

## What can you get help with?

- get updated information about the local situation
- receive information about services in the municipality and other matters that affect the residents
- get help relaying urgent requests to emergency services

**Here you will find the points:**

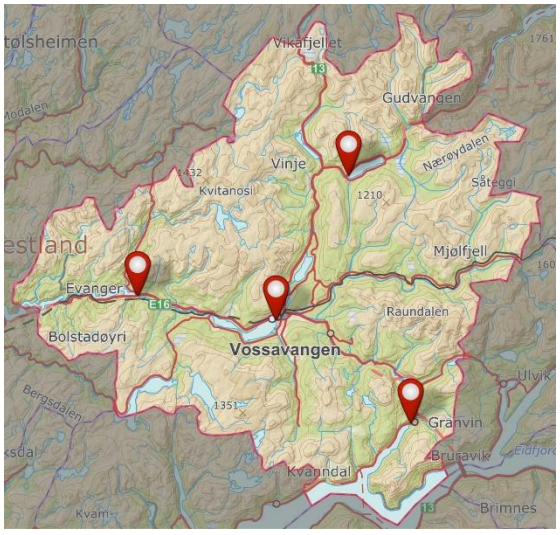

- Voss tinghus
  *Uttrågata 9*
- Evanger primary school.
  *Knute Nelson-gata 26*
- Vossestrand omsorgstun
  *Oppheimsvegen 35*
- Granvin sjukeheim
  *Eidesvegen 24*

**IN CASE OF EMERGENCY**

Call 110 in the event of a fire, 112 for the police, or 113 if you need emergency medical assistance. If the emergency numbers do not work, go to the nearest staffed fire station or the hospital.

**PERSONAL PREPAREDNESS**

The information points do not replace self-preparedness. In the event of a major crisis, it is important that you follow national advice and have self-preparedness so that you can manage as much as possible on your own for at least a week. Read the advice: https://www.dsb.no/sikkerhverdag/

**Hang the poster in a place you will remember and that is easily accessible.**

(For example, on a cabinetdoor or in the storage room)
